

Metal Shaping Seminar by Fay Butler

- **Hosted By WyoTech Street Rod, 1889 Venture Dr. Laramie, WY.82070**
- **Date: March 24, 25th 8:00 to 5:00 lunch break from noon-1:00**
- **Time: 8:00 to 5:00**
- **Limited space: 15 participants maximum**
- **Classroom instruction on: Material science, numbering system of metals, elements of compound curves, the three shapes in compound curve work, die selection, etc.**
- **Question and answer period: Bring along any projects that you are having problems with and Fay will help you understand that specific problem. He might even use it as part of a demonstration. In some cases if applicable, maybe you can work on that during the time. Also bring in any favorite tools that you have, hand hammers, dolly's etc for Fay to comment on.**
- **Demonstration: Hand tools, Wheeling machine, power hammer, operation, set up, adjustment and maintenance**
- **Hands on time: specific exercises on operation of related metal shaping equipment**
- **No tools or equipment will be necessary for the work time as we will be using the school's approved equipment exclusively.**
- **What you should bring: Safety equipment, eye glasses, ear protection, gloves, an open mind and positive inquisitive attitude.**
- **The cost for both days is \$500.**
- **For more information or to register contact: Gary Puls (307)755-2486 gpuls@wyotechstaff.edu Fay's website is www.faybutler.com**
